Introduction

The Mathematics (Revision 2007) Course of Study is based on Ohio's Academic Content Standards, Benchmarks, and Indicators.

Each course of study incorporates curriculum alignment with content standards, specific indicators, instructional activities, mid-term and quarterly assessments and resources.

Career Education Standards and Technology Standards have been infused with the Social Studies Content Standards

The Mid-Term and Quarterly Assessments are to be utilized as a common assessment tool to measure student progress and to address differentiated instruction and intervention planning.

The Curriculum Map for each quarter – establishes the time frame for pacing – for the introduction, development and assessment of each indicator.

The Mathematics Course of Study is an open-ended work in progress, designed to allow for further refinement in resources, technology, and instructional strategies.

Edgewood City School District

Our Mission:

The mission of the Edgewood City School Community is to inspire each student to attain personal fulfillment through intellectual, emotional and social growth by providing:

- Meaningful and challenging learning experiences
- Energetic, dedicated and passionate staff
- An Academically stimulating environment.

Beliefs:

We believe that:

- Each person is unique.
- Each person has the ability to learn.
- Each person has inherent human worth and deserves to be treated with respect.
- New experiences and challenges are essential to personal development.
- The home, community and school share the responsibility for education.

Parameters:

- We will treat all people with dignity and respect.
- We will affirm each student every day.
- We will direct all resources toward student success.
- We will not compromise high expectations.
- We will, when making decisions, consider all factors that impact each child.

Objectives:

Each student will:

- Be a confident, responsible learner.
- Experience daily growth toward personal achievement.
- Meet district expectations which exceed state and federal standards.
- Be equipped to lead a successful and fulfilling life.

Acknowledgements

The Edgewood City School District Leadership Team acknowledges with grateful appreciation the dedication of the Staff and the quality of work in the Grade Two Mathematics Course of Study.
